"In line with the advent of wireless telegraphy it is fitting that we should have the wireless telephone. While this instrument has not attained a high degree of perfection, in fact. is still in the experimental stage, some very promising results have been attained and we shall perhaps at an early date be able to turn it to practical commercial account.

"A ship on nearing Golden Gate is often entertained with strains of Beethoven, followed by a selection from grand opera, or perhaps one of the popular airs. There are several wireless telephone experimental stations throughout California, and the central Manila Sunday 12 m. and proceeds and most powerful one it seems is at the Fairmont Hotel in San Francisco. This station has been heard by myself A meeting of the members of Hoat a distance of 80 miles out at sea noith Lodge 616, R. P. O.
